

GP Anaesthetist/Specialist Anaesthetist Coffs Harbour (Mid North Coast) NSW

We are looking for a GP Anaesthetist/Specialist Anaesthetist who is available to work Mondays or Tuesdays in Coffs Harbour.

Blue Water Medical is a well established termination of pregnancy clinic in Coffs Harbour for 10 years and in Sydney for 17 years.

Patients are ASA 1-2.

This is an essential service for women and their families in Coffs Harbour. Our patients, despite often being very sad about their decision, can be facing significant physical and psychological risks if they continue. We see cases of severe foetal abnormalities, very young girls, sexual assault/domestic violence victims and also ordinary women who couldn't cope with a child or another child.

Being in a regional area, women have little choice unless they can get to Tweed Heads or Newcastle, 3 to 4 hours away.

Currently, I am flying doctors up from Sydney. Your fees are comparable to work elsewhere. Our clinic is efficient and a friendly workplace.

If you're interested in working with me and potentially helping women and their families please contact me.

Dr Sue Brumby
